This helped them to enhance their employability skills and make them job-ready with real corporate exposure.		

Department of Textile Technology arranged a Program on the **"Field visit-Implant training"** held on 21 March 2025 as 1 day program to the Garment Industry.

Industrial Visit gives practical knowledge to the students and explains how industry works, revealing the students to a real working environment and increases their knowledge and skill from what they have learned in the college. To enhance the employability skills and make them job-ready with real corporate exposure. To relate theoretical concepts in line with organizational functioning Industrial Visit provides you in-depth knowledge.

The visit has been arranged to Garment industry where they learned about procuring orders, workmanship, line of production, warehouse managing, working with deals, over all maintenance like power supply, machine, labor and raw materials, Also the career opportunity in this field, etc.,. This visit enables the students to understand and learn the current trend in the job market. Students will prefer Industrial Visit to build their profile for their jobs and also for their higher studies. Thus we facilitate and encourage the students to pursue their dream with established wings.

This, which will intern make them deep roots to more knowledge nurturing and Placements opportunities.
