ABOUT THE COLLEGE

Jaya Engineering College a premier technical institution approved by AICTE and affiliated to Anna University was established in 1995 with a focus on technological innovation, entrepreneurship and character building in the students. The institution has been established by Jaya Educational Trust, imparting 12 excellent educations through 21 educational institutions offering courses in medicine, paramedical and arts & science besides running many schools, catering the needs of the society. The college management team consists of well experienced and committed Academicians and Administrators.

ABOUT THE DEPARTMENT

Department of Aeronautical Engineering is making great efforts in imparting knowledge and skill to meet the aircraft industry expectation .The department offers theory and lab works as per Anna University syllabus through qualified faculty and staff. Aeronautical Engineering department started functioning since 2006.The department has well equipped laboratory facilities and faculty to prepare the students to meet future requirement in the field of aviation

ABOUT THE WORKSHOP

Soft skill training is about modelling and analysis using numerical analysis and algorithms to solve and analyze problems that involve fluid flows and structural deformations. Computers are used to perform the calculations required to simulate the interaction of liquids and gases with surfaces defined by boundary conditions and stress distribution over the structures. With high-speed supercomputers, better solutions can be achieved. Ongoing research yields software that improves the accuracy and speed of complex simulation scenarios. Initial experimental validation of such software is performed with the final validation coming in full-scale testing, e.g. flight tests
